

### El Camino Registration Permit Forms Available

Permits for early registration for spring semester classes at El Camino College are now available for new and former students in the registration office, Meri F. Sloan, director of student personnel announced Saturday.

This will mark the first time that such a permit has been made to new students, the director explained. "This will facilitate the enrollment process and give incoming students the opportunity to register while classes are still relatively plentiful," he concluded.

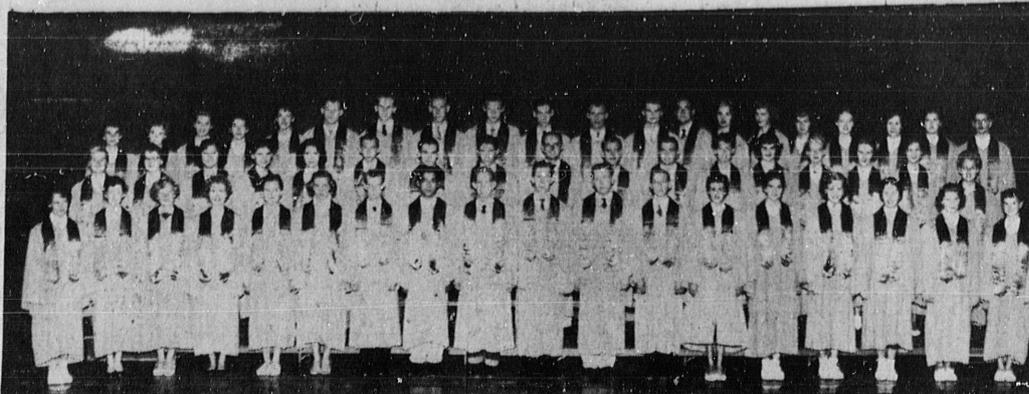

The number of permits qualifying prospective students for early registration is limited, however, and will be issued on a first come, first served basis, Sloan elaborated.

Placement tests, essential prior to enrollment in classes in English, chemistry, and algebra, will be given in conformance with dates which will be issued in the printed schedule of classes. This schedule will be available in the registration office prior to the Christmas holidays.

Students failing to gain permits to register early will sign for classes on Jan. 31 or Feb. 1, according to an alphabetical sequence to be published in the class schedule, the director stated.

Those students who are currently enrolled at the college and who have already conferred with their counselors and qualified for priority registration will be notified of their early appointments by mail. Registration for this group will occur during the week following Christmas, Sloan said.

"Other currently enrolled students may secure permits to register to qualify for early registration during the month of January. Permits will be available in the registration office. Students who fail to secure a permit may register only during general registration when the new semester begins."

FOR CHRISTMAS CHEER... The 60-voice Tartar Choir will be one of the three Torrance High music groups appearing in the first annual Christmas concert at the HHS Auditorium Thursday night at 8:15 p.m. After a colorful Christmas processional, the group will join the Girls' Glee Club and the Concert Band in the presentation of traditional Christmas numbers. Several members of the choir will sing solos. Glenn F. Hawley is director of the choir.

### 200 Students to Appear in High School Concert

Two hundred singers and instrumentalists in Torrance High School music groups will appear in the first annual Christmas concert, Thursday night at the high school auditorium at 8:15 p.m. Members of the Tartar Choir, Girls' Glee Club, and Concert Band will present a number of traditional Christmas songs dating from the 15th century to the present day.

The Tartar choir, under the direction of Glenn F. Hawley, director of High School vocal music, will begin the carol portion of the program with a colorful Christmas processional through the aisles of the auditorium.

Soloists with the choir are Karen Brunel, Bill Melton, Tony Ward, and Burt Cobb. The Goldenaires Trio, Joan Reed, Penny Branam, Janet Golden and Marilyn Brooks, accompanist, will sing contemporary Christmas songs.

Evelyn Schmalz is accompanist for the choir.

The program is scheduled for 8:15 p.m. Students and the public are cordially invited. There is no admission charge.

The Tartar Choir will fulfill an engagement tomorrow at the Disneyland Christmas Holiday Festival. Their presentation of special Christmas songs for the yuletide event will be performed on an outdoor stage in an Alpine Village Christmas setting, specially designed by Disney artists.

RECEIVES 'OSCAR'... Herman Melton, service department manager for Whittlesey Motors, receives his 'Oscar' for service training from Groucho, the DeSoto Man. Melton was there, but Groucho just sent along a life-sized portrait for the photographer.

### Whittlesey Motors Service Manager Receives 'Oscar'

Chrysler Corp. has awarded an attractive desk trophy to Herman Melton, service manager of Whittlesey Motors, in recognition of his work as conference leader in an advanced training program for automotive technicians.

Notification of award came last week from G. J. Cutler, director of service at Plymouth and administrator of a nationwide program under which more than 150,000 mechanics have received special training in servicing of Chrysler Corp. cars and trucks.

**Known Nationally**

Melton receives the Tech trophy, automotive equivalent of the movie Oscar. Tech is the star character in De Soto, Plymouth service training films and booklets.

The training program is known nationally as the Master Technicians Service Conference. It is the largest and among the most successful ever attempted by American industry. It assures car owners of expert service by master technicians.

"The service managers of our dealerships are the men who have made this great training program such an outstanding success," Cutler said. "Many of them have given generously of their own leisure time to serve as conference leaders in the building of a corps of master automotive technicians."

**Exam Given**

Enrollment in MTSC is voluntary. Every month, some 7000 dealerships receive an instructional kit which deals with one special service problem. In each session, the men study the problem under discussion by using the sound films, booklets and charts which are included in the kit. Then they apply what they have been shown when they go to work on the auto parts or assemblies involved during the practical work period of the conference. Each session ends with a written test, and each man's examination paper is sent to MTSC headquarters where it is reviewed, graded, and becomes part of his permanent record.

### 30 Students Will Feature NHS Tuesday

North High School will be the featured school on Gene Norman's "Campus Club" TV show tomorrow, as representatives of the local student body journey to Los Angeles to talk about their activities.

Student Body President Arlene Lesar, Commissioner of Activities Ikuiko Kato, Commissioner of Athletics Jim Bald, and Exchange Student Arvid Willemssen will describe some of the activities to the listening audience from 4 to 5 p.m. over Channel 9.

Each day, Norman's show features a different high school in the Los Angeles area.

Also appearing on the show will be newly-formed dance band, and song couples, majorities, and cheerleaders. Four couples—Arlene Lesar, Ray Grieshaber, Dave Ladd, Judy Fazio, Gary Martin, Carol Porter, Marilyn Brier, and Bill Watson—will dance and participate in games.

Torrance High School was featured on the show last Nov. 17.

### Harbor Mental Health Clinic To Get Funds

A recommendation by the California Advisory Committee on Mental Health to the Director of Mental Hygiene, who in turn approved the allocation of National Mental Health emergency funds for the Harbor District Mental Health Clinic, was announced at a recent emergency meeting open to interested members of the harbor communities.

This action came as the first tangible proof that the state intends to carry through on its original promise to match community effort and contribution in this "pilot" project, according to Dr. Portia Bell Hume, Deputy Director of Community Services, State Dept. of Mental Hygiene.

**A Joint Venture**

Dr. Hume stated, "When we conceived the notion of having a staff from Los Angeles go to the patients rather than the patients coming to the L. A. Clinic, it involved communities meeting us halfway in providing the means of this service. In both San Pedro and Long Beach, for the first time on an informal basis and without any law, there was put into operation a joint venture between the state and the local government."

In the case of San Pedro, it was a joint venture between the state and the city of Los Angeles through the City Health Dept.

In the case of Long Beach, it was a joint venture between the state and county through the local health department.

"In both instances, in addition, there was a third party to the venture, namely, the people of these communities," Dr. Hume said.

**As Far as Working Relationships are Concerned**, both of the branch clinics have shown that friendly and smooth cooperation between local and state government, and the people is possible. As far as I know, the main difficulty has been the lack of professional personnel in the L. A. Clinic to provide service in the amount needed. Now, as a result of all working together, the governor's budget will be presented to the legislature in 1956 and will go far to bring more services to the area.

"I feel, not only has this result been made possible by good will on everyone's part, but that we all owe a debt of gratitude to individual citizens and organizations who have supported this effort."

**Spoke State Action**

Miss Wenona McGuire, State Legislative Chairman of the A A U W, California Division, spoke to the group, emphasizing that it is the community support shown in the Harbor-South Bay-Torrance area which spurs such state action on welfare and health measures.

Mr. Lillie K. Wainwright, Coordinator of the Harbor District Mental Health Service in San Pedro, declared during the meeting, "Additional service by the state does not end community responsibility. As the service grows, additional responsibilities will arise and must be met by the community."

Warren Hamilton and Leonard Lifton attended the meeting representing the Torrance area.
